AUTOMATIC LINE FOR THE PACKAGING OF SYRINGES

soft & rigid packs

USER FRIENDLY
with next-generation HMI

KNEE-FREE
for no.4 operators space

SPECIAL CUTTING SYSTEMS
for extra rigid film

INKJET PRINTER

SPECIAL TECHNOLOGY FOR
RIGID FILM UP TO 800 MICRONS

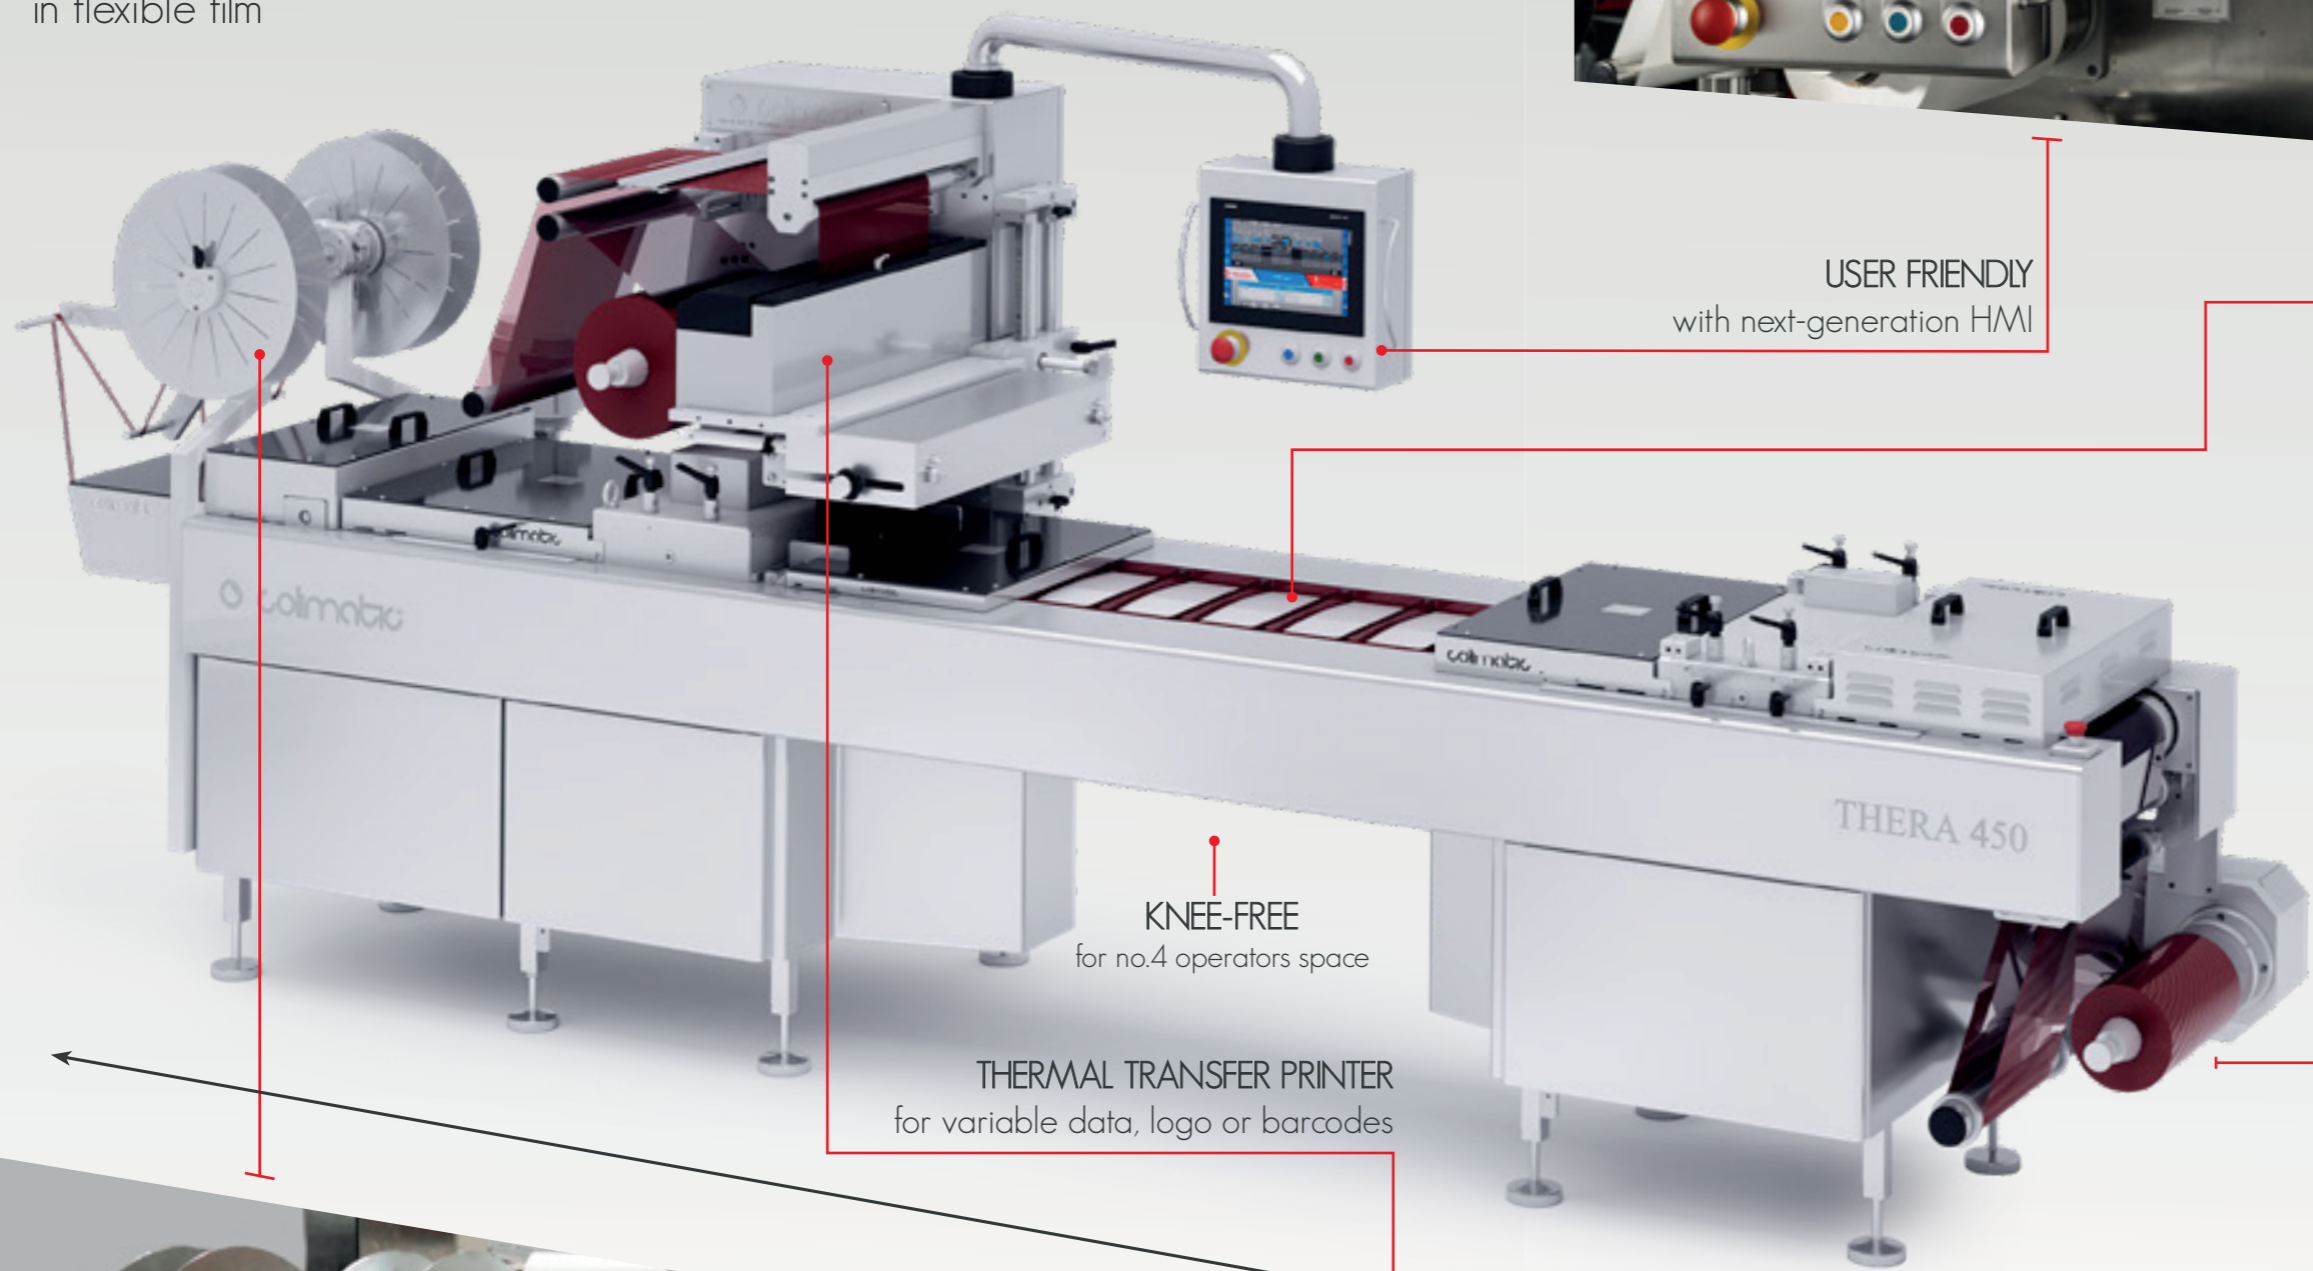

DOUBLE PRE-HEATING
for extra rigid film

THERMOFORMING LINE MOD. THERA 450

- The highest quality standard for the best value for money

AUTOMATIC LINE FOR THE PACKAGING OF
BAGS
in flexible film

USER FRIENDLY
with next-generation HMI

COMPACT FOOTPRINT
conforming to any cleanrooms specifications

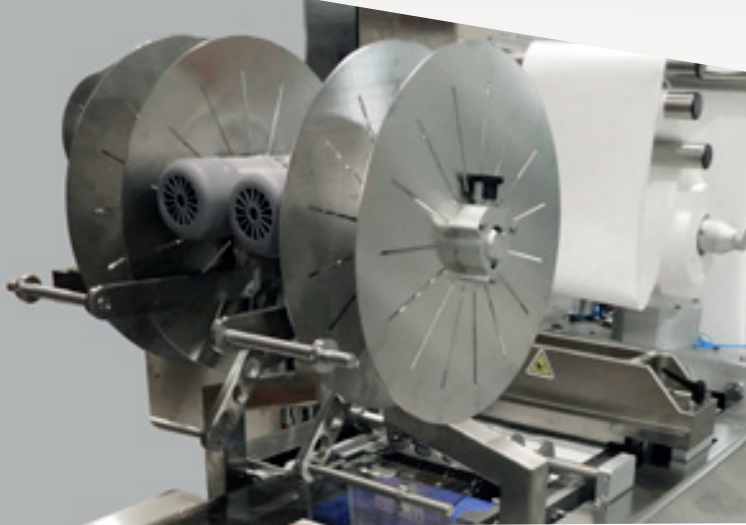

THERMAL TRANSFER PRINTER
for variable data, logo or barcodes

KNEE-FREE
for no.4 operators space

4500 mm

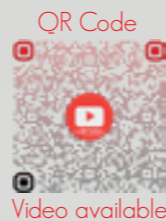

THERMOFORMING LINE MOD. THERA 450

- A combination of reliability, simplicity and high performance, enclosed in a solid and compact structure.

AUTOMATIC LINE FOR THE PACKAGING OF SYRINGES

with vision system

CFR21
compliant software to
ensure data traceability

OCV-OCR
printing vision systems

PRODUCT VISION SYSTEM
for features recognition

TOP&BOTTOM
splice film detection

VISION SYSTEM

- optical control system for the products
- print presence and quality control

BAD PRODUCTS
rejection system

THERMAL TRANSFER
printing device

THERMOFORMING LINE MOD. THERA 650

- Highest efficiency guaranteed by the most advanced quality detection controls

AUTOMATIC LINE FOR THE PACKAGING OF
VIALS

with automatic loading system

THERMAL
TRANSFER PRINTER

MISPLACED
PRODUCT DETECTION

PICK&PLACE
for product positioning

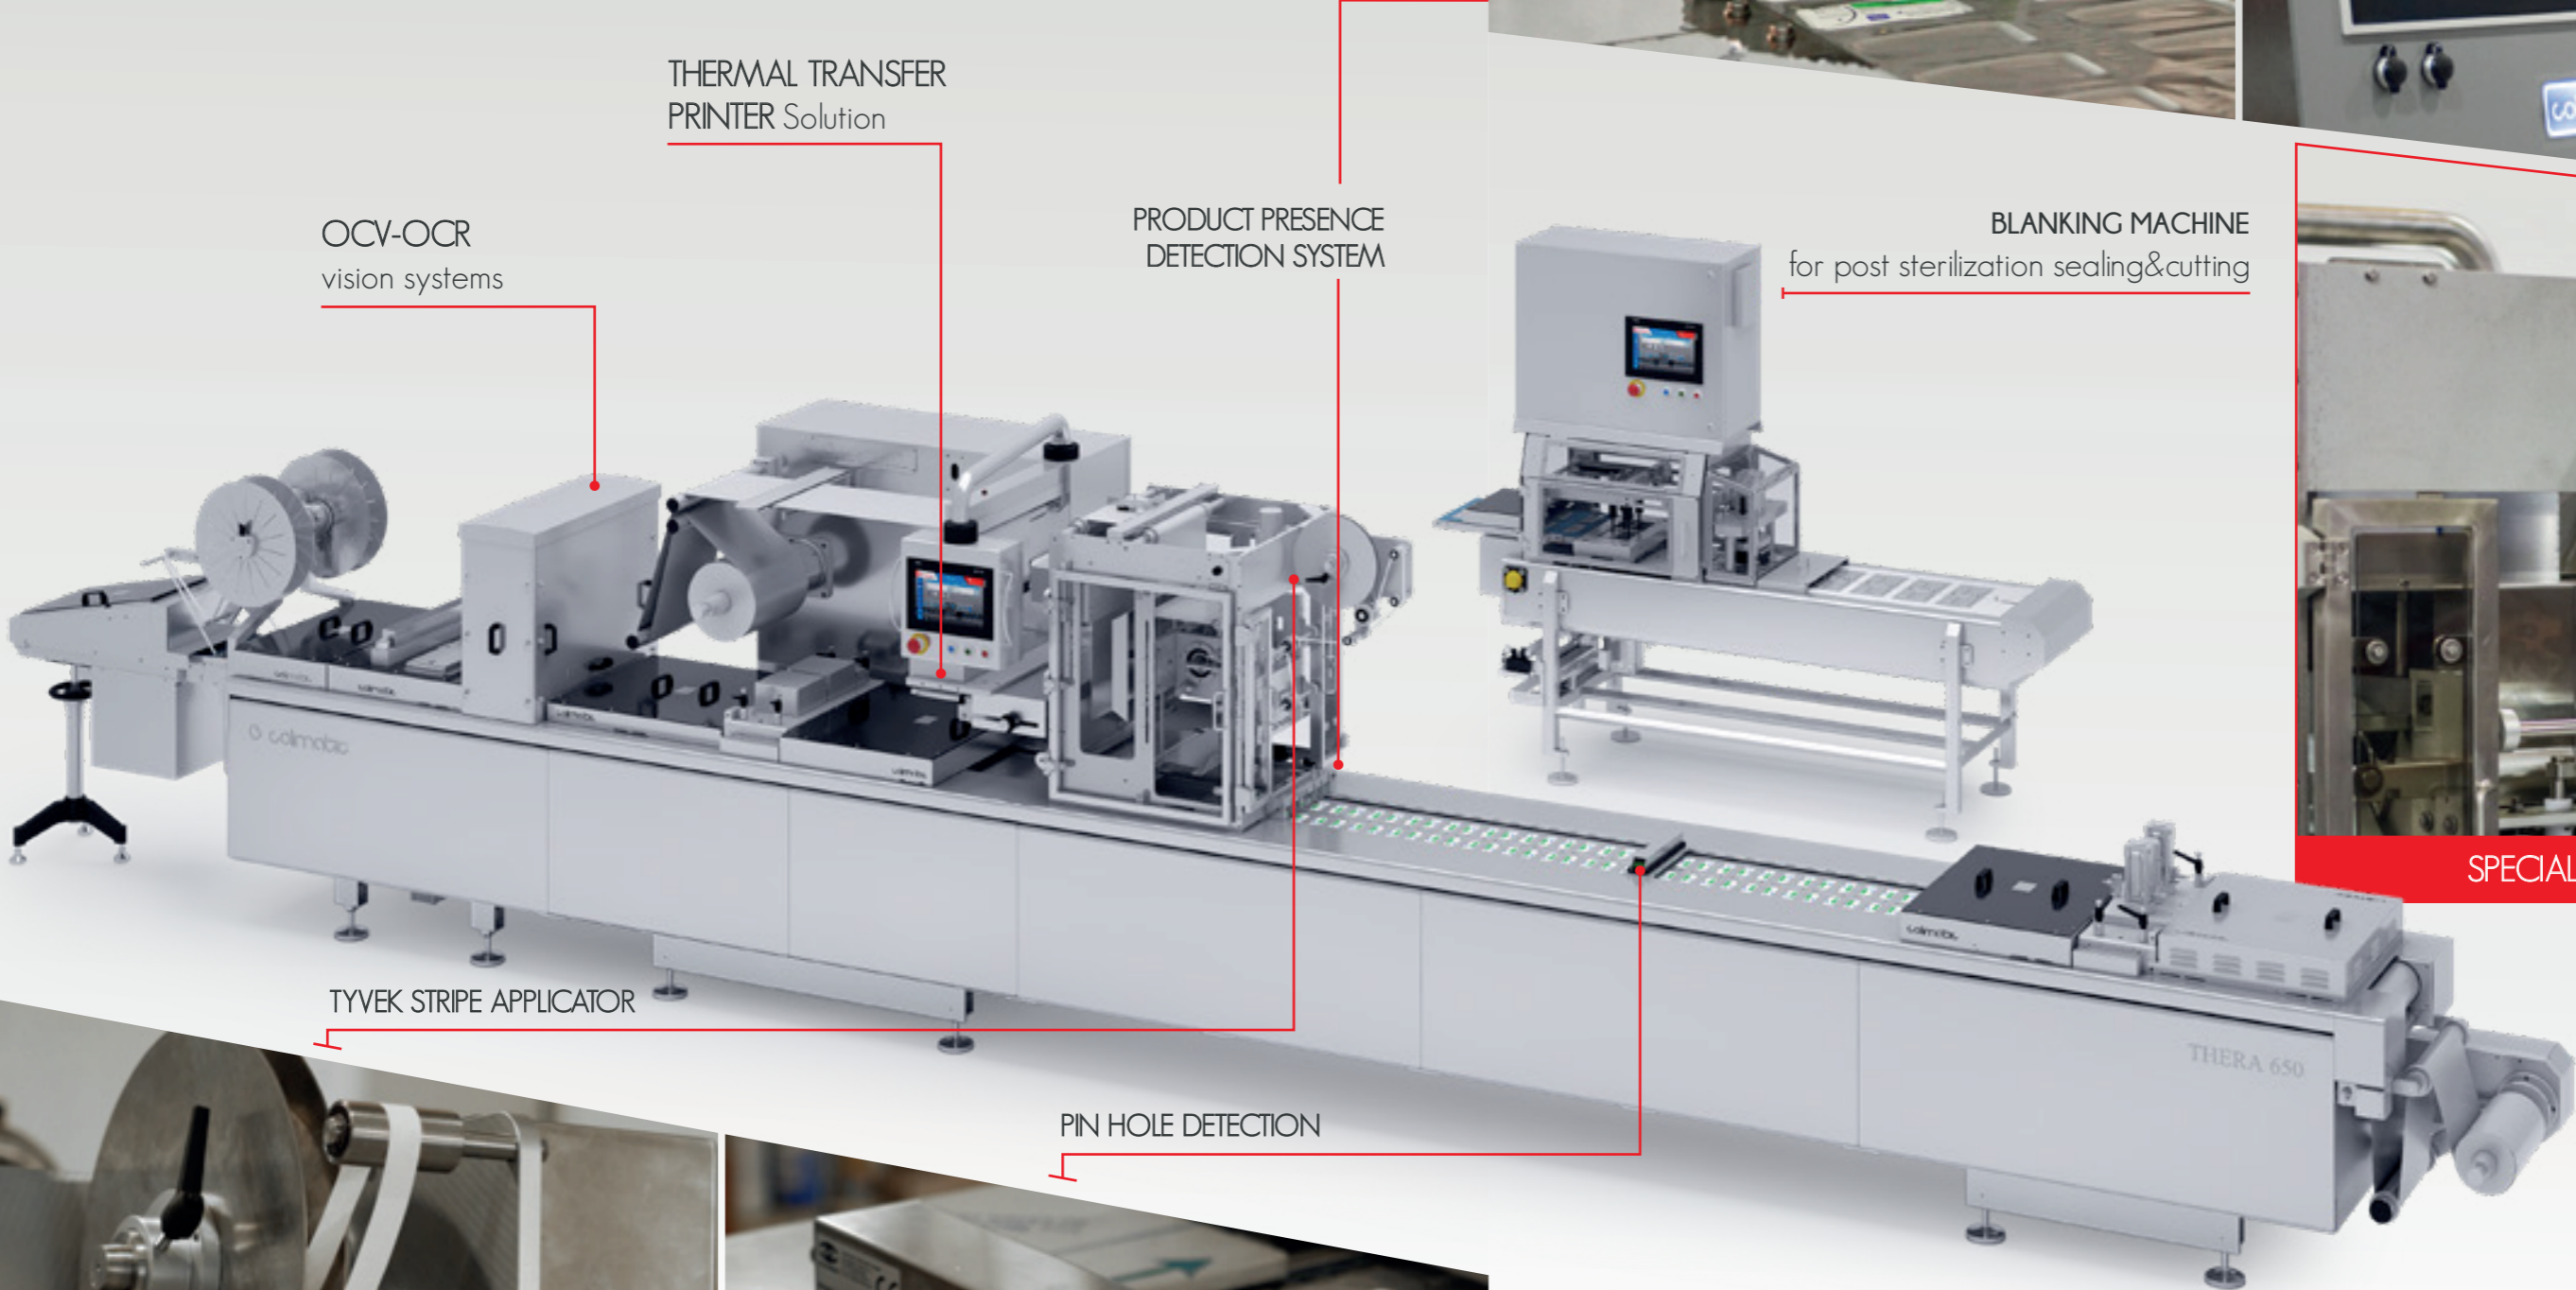

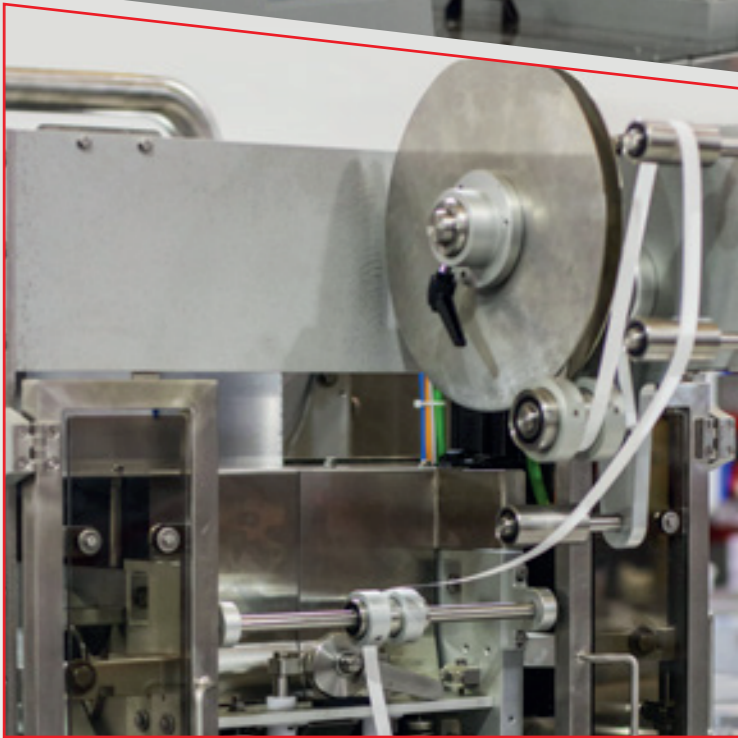

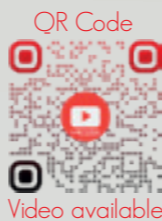

AUTOMATIC LOADING AND
POSITIONING DEVICE
with customized orientation

THERMOFORMING LINE MOD. THERA 650

Great cost saving on labour costs (only 1 line supervisor required)

REVOLUTIONARY TERMINAL LINE FOR
SUTURES

patent n. 2020160000S549S

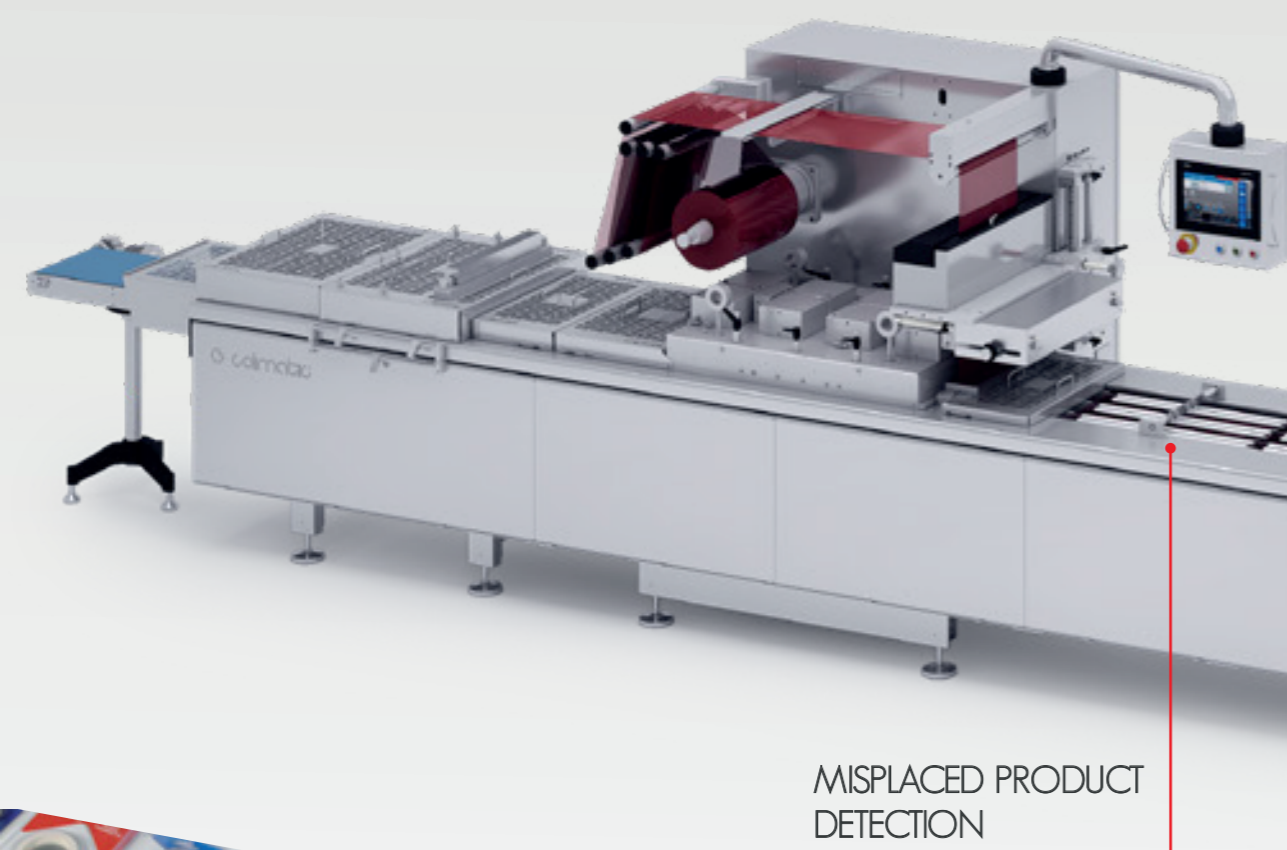

SPECIAL TYVEK STRIPE APPLICATION

THERMOFORMING LINE MOD. THERA650

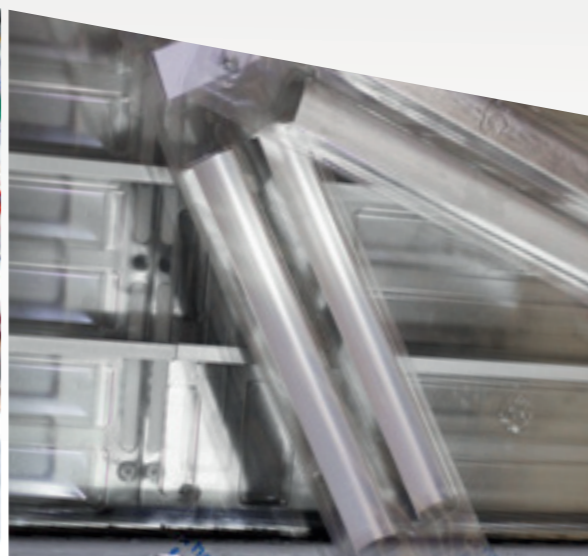

- Savings up to 35% on total costs. Thanks to our innovative tyvek stripe system

ALL IN ONE TECHNOLOGY PACKAGING LINE BLISTER

index up to 1000 mm

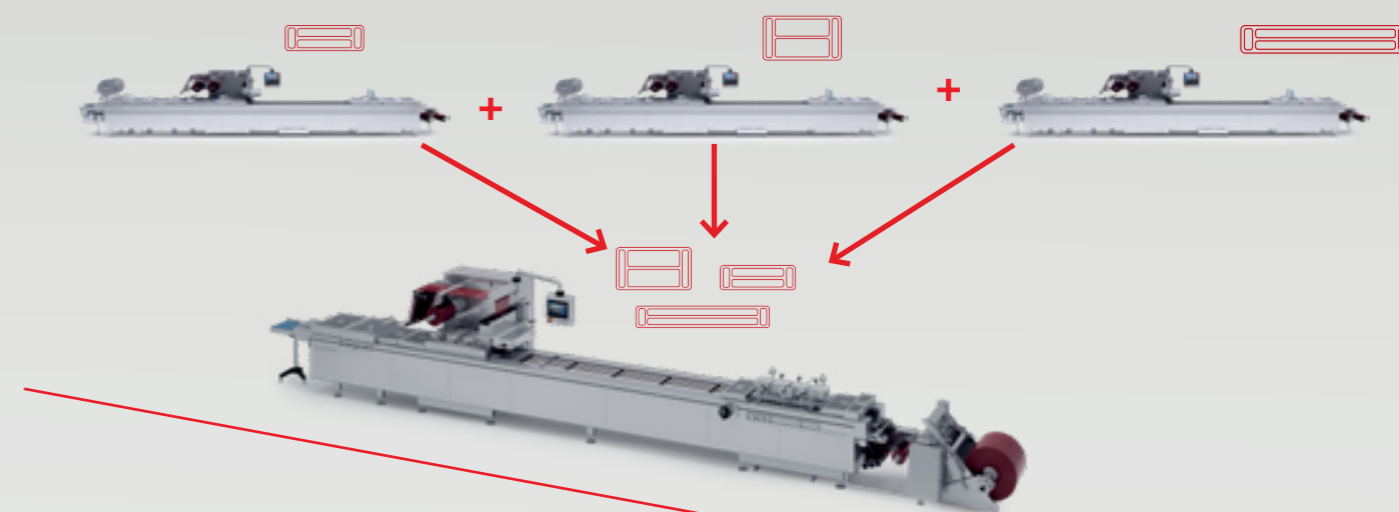

MISPLACED PRODUCT
DETECTION

ALL IN ONE
TECHNOLOGY
SMART CHANGE

combines the production of inconsistent
dies dimensions in 1 line.

ADJUSTING RACK
for easy index position change

PRODUCTS
from 10cm (up) to 100cm

THERMOFORMING LINE THERA 650

- Great cost saving on labour costs (only 1 line supervisor required)
- Perfect solution to deal a wide range of products
- Available with Automatic Robotic Loading system by Robot

AUTOMATIC LINE FOR THE PACKAGING OF SURGICAL KITS

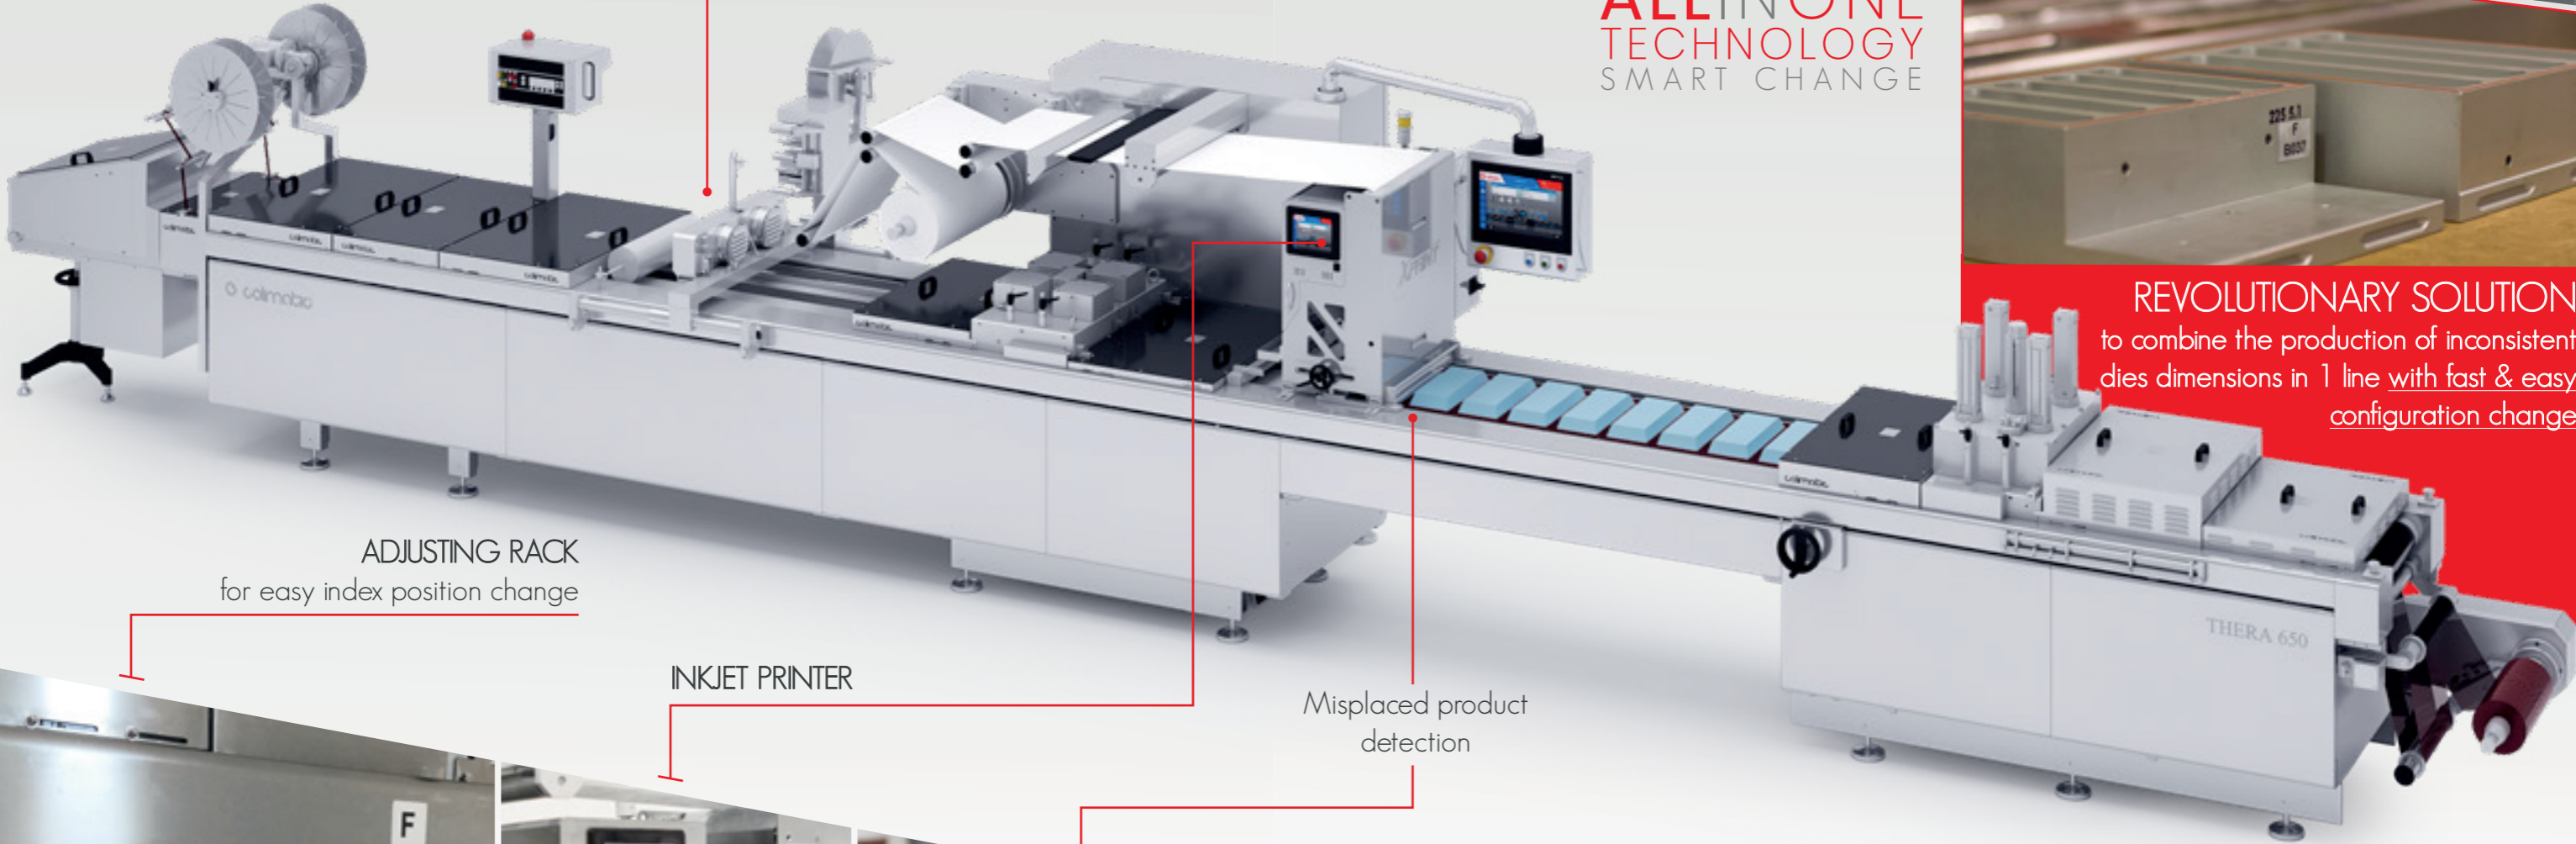

Automatic labelling device

ALL IN ONE
TECHNOLOGY
SMART CHANGE

REVOLUTIONARY SOLUTION
to combine the production of inconsistent
dies dimensions in 1 line with fast & easy
configuration change

ADJUSTING RACK
for easy index position change

INKJET PRINTER

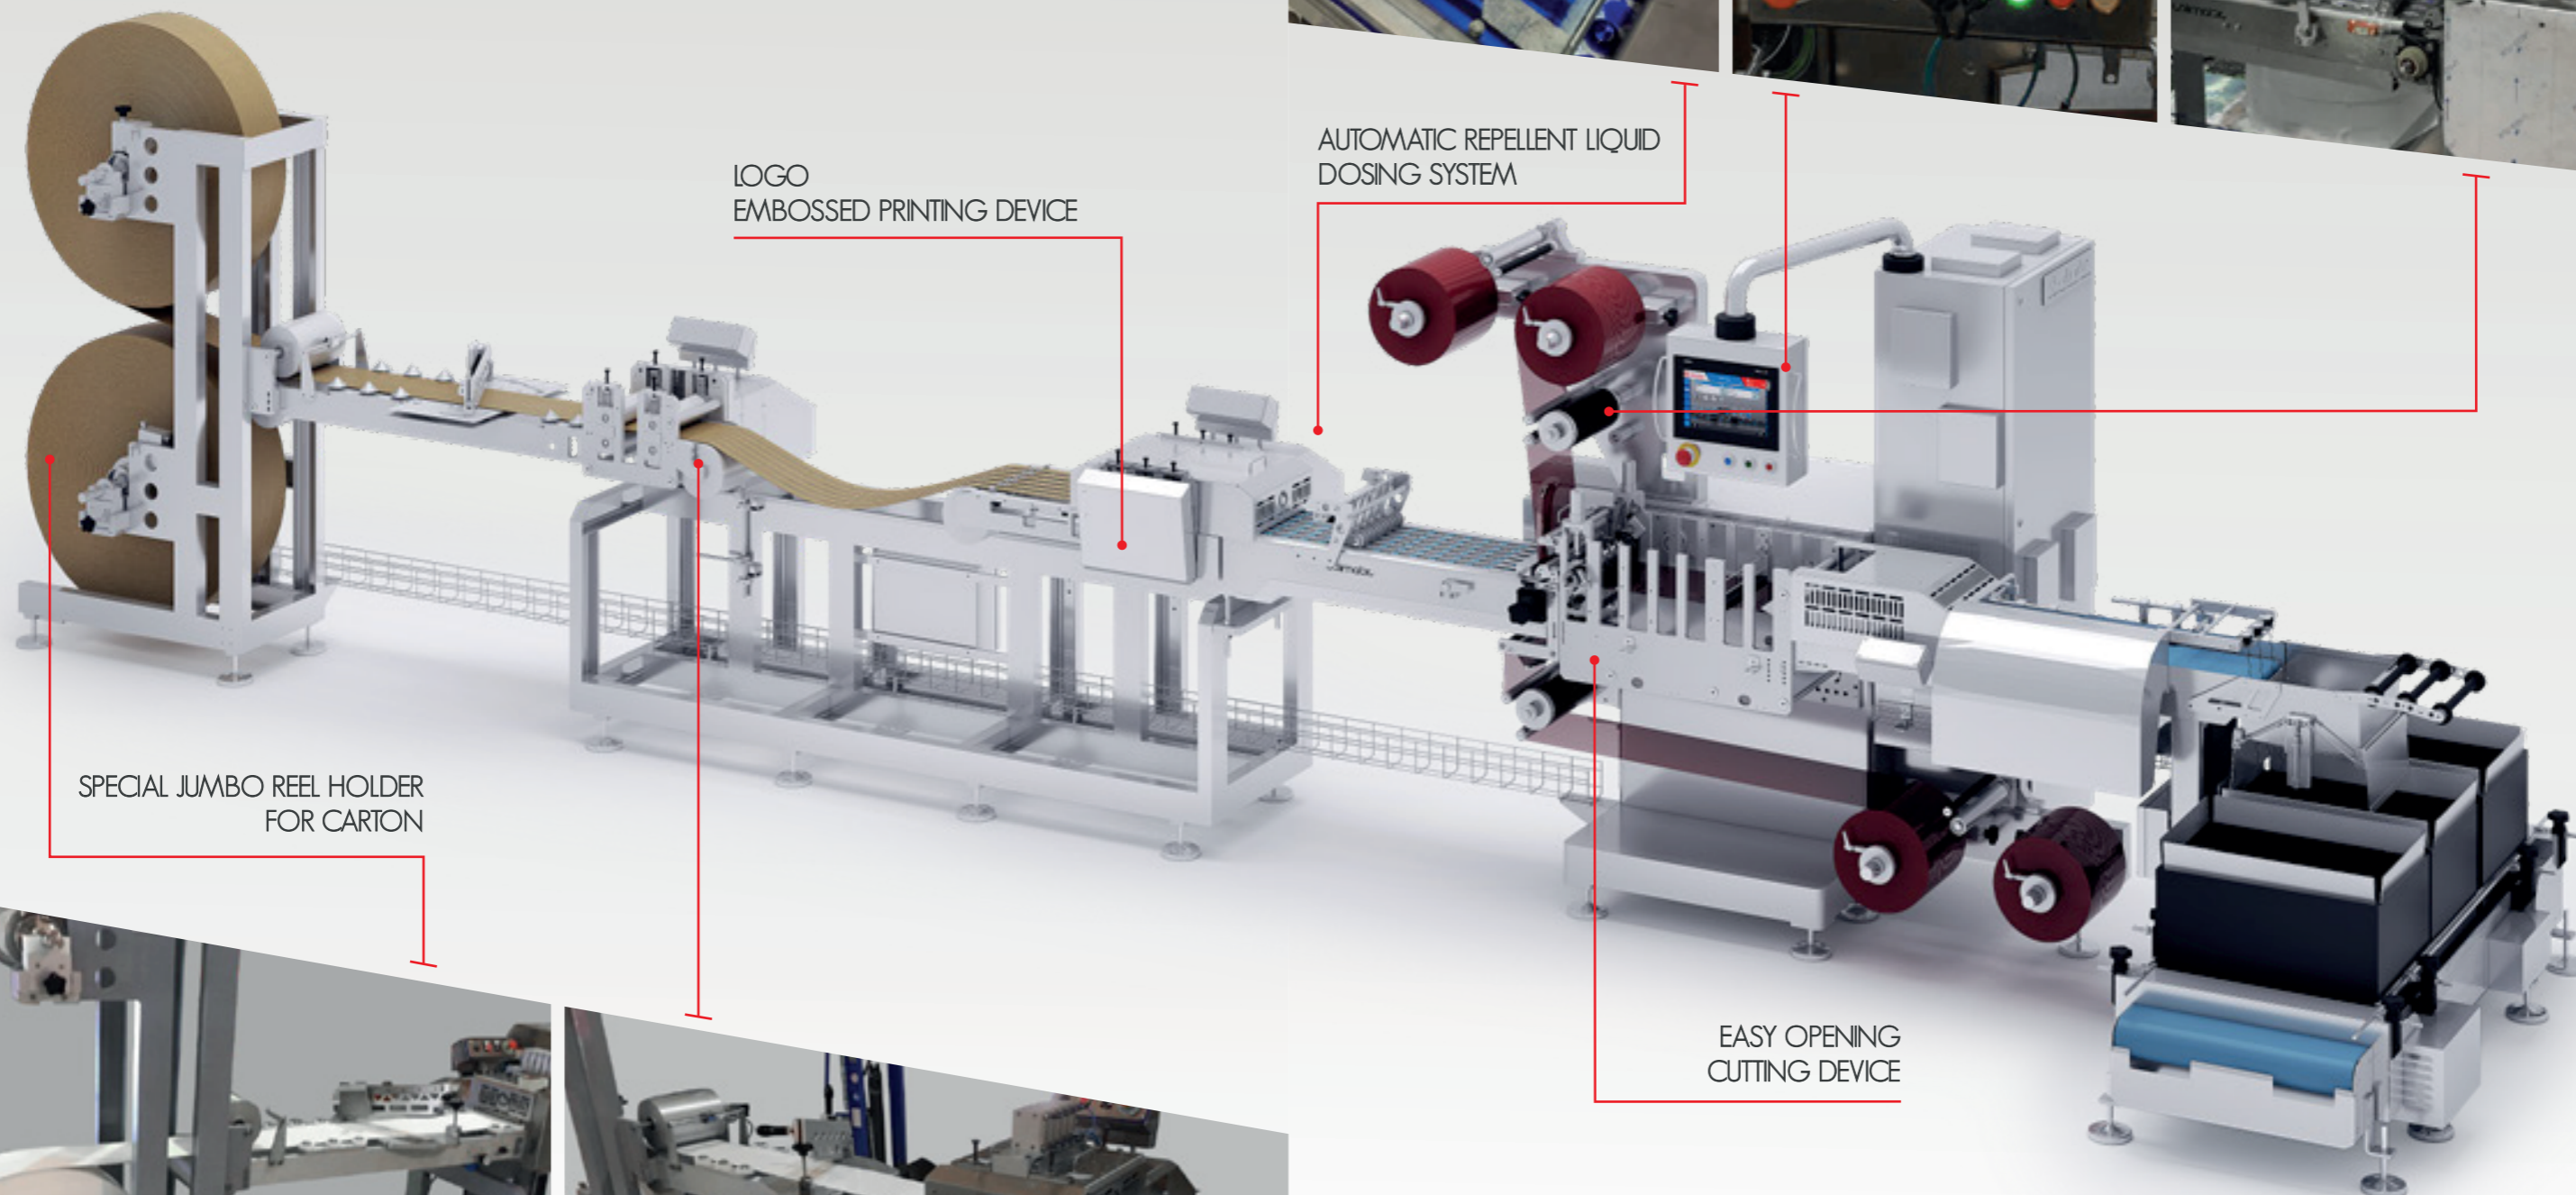

Misplaced product
detection

THERMOFORMING LINE MOD. THERA 650

- Highest flexibility and minimum downtime

AUTOMATIC LINE FOR PRODUCTION AND PACKAGING OF
TABS
mosquito mats

SPECIAL JUMBO REEL HOLDER
FOR CARTON
